

DIVERSIFIED PRODUCTS & EQUIPMENT

Air Compressors

- Rotary Screw Compressors
 - Variable Speed
 - Single-Stage
 - Hi Efficiency Two-Stage
 - Oil Free and Lubricated
- Reciprocating Compressors
 - Single-Stage
 - Two-Stage
 - Pressures up to 5000 PSIG

Vacuum Pumps

- Rotary Screw
- Reciprocating

Energy Management Systems

- Automatic Sequencers
- Flow Controllers
- Detailed Compressed Air Audits

Piping Systems & Installation Services

- Aluminum & Black Iron Piping System
- Turnkey Installations

Air Treatment & Accessories

- Air Dryers & Filtration
 - Refrigerated
 - Cycling
 - Non-Cycling
 - Regenerative (desiccant)
 - Heatless
 - Heated
 - Blower Purge
 - Filtration
 - Coalescing
 - Particulate
 - Mist Eliminators

Accessories

- Aftercoolers and Separators
- Air Receivers
- Automatic Drains
- Oil/Water Separators

Water Cooling Systems

- Closed Loop Systems-Dry Cooler
- Closed Evaporative Towers
- Open Evaporative Towers
- Chillers
- Plate & Frame Heat Exchangers

DIVERSIFIED
AIR SYSTEMS, INC.
COMPRESSED AIR INNOVATIONS

ABOUT DIVERSIFIED

Since 1979, Diversified Air Systems has been a leader in the compressed air and vacuum fields covering the Northern Ohio, Southern Michigan and Western Pennsylvania territories. We continuously invest and keep pace with innovations and technology improvements that occur in today's fast changing business environment.

Investments from the most advanced wireless web-based service software program in the compressed air industry, along with continuous product training and development are just a few examples of what makes us a leader in our field.

Our local factory trained staff is available 24/7 to assist you in any area of your system. Our services include a fully staffed and stocked local parts department, qualified factory trained service technicians, along with one of the most experienced engineering departments in the area to provide you and your company with the best in compressed air innovations.

DIVERSIFIED SERVICE & REPAIR

We use the most advanced web-based service software program from Metrix. The Metrix program, which is totally integrated with our inventory and distribution system provides fast and immediate response to all your service needs.

Our service and repair departments also provide:

- Preventative maintenance service agreements to reduce maintenance and operating costs
- Factory trained compressed air service technicians
- 24/7 emergency service on all makes and models of equipment
- Both on site and complete in shop services

500 HP System – Designed and Engineered by Diversified

600 HP Airtility (contracted air) System in Operation

DIVERSIFIED DESIGN & ENGINEERING

Diversified Air System engineers follow the guidelines of the Department of Energy in regards to the application and operation of the most efficient compressed air systems. With over hundreds of local installations, we apply today's technology and equipment to tackle the high cost of today's compressed air systems.

Our experience and capabilities include:

- Complete air analysis through detailed compressed air audits
- System engineering and design
- Proven energy reductions in compressed air costs
- Piping and equipment layout and design

DIVERSIFIED PARTS & AFTERMARKET SUPPORT

Our state of the art inventory tracking and inventory management system includes direct links to our suppliers. We can instantly access the vendors database, determine components and items required and process the order for overnight shipment within minutes.

Our aftermarket group services also include:

- Parts for all makes and models of compressors and air dryers/filters
- Large inventories of over \$750,000 with stock at all locations
- Both OEM and aftermarket components
- Complete line of compressor lubricants

DIVERSIFIED OTHER SERVICES

- Turn key installations
- 24-Hour rental compressors and air dryers
- Leak detection of total plant air piping systems
- Airtility-contracted compressed air system with no equipment purchase
